

T-shirt and jeans I got some wheels  
I'll take you where you want to go  
I know a place we can park  
where you can play every note on your air guitar  
'Cause I gotta black dog feeling  
drumming on the steering wheel

Singing in the car with you to zeppelin  
on this perfect endless night  
Trying to build our own stairway to heaven  
yeah I've never felt so high  
You turn it up we scream along  
Take all my love  
a summer night with you and zeppelin

Torn at the seams  
I knew by the fray in your sleeve that we would fall apart  
but I'd remember this night  
your body close me cant you see  
that I got a black dog feeling  
drumming on the steering wheel

Singing in the car with you to zeppelin  
on this perfect endless night  
Trying to build our own stairway to heaven  
yeah I've never felt so high  
You turn it up we scream along  
Take all my love  
a summer night with you and zeppelin

and I knew that I'd be here alone  
kills me I was right  
but I'd do it again if you called  
where are you tonight  
tonight I need you tonight

Singing in the car with you to zeppelin  
on this perfect endless night  
Trying to build our own stairway to heaven  
yeah I've never felt so high  
You turn it up we scream along  
Take all my love  
a summer night with you and zeppelin
