

# Angel Like You

Eli Young Band

I don't know what on earth I'd do without an angel like you.

I'd be lost like a ship at sea that took a wrong turn in the dark

Could put a pen to the story of my life but never know where to start

I'd be skipping days and slipping through the nights without feeling a thing

If you weren't here putting me right, what would my life mean

I don't know what on earth I'd do without an angel like you,  
Caught in a fire so hot without the rain to make it stop,  
They would paint me a fool in a world that's so cruel,  
Would be hell to go through without an angel like you.

All I need is a shot of your smile to chase the blues away  
And anybody else woulda give it up, you're the kind of love that stays

All of that time I was looking for you, I knew there had to be a plan

And I get everything I ever wanted in life when you tell me I'm a good man

I don't know what on earth I'd do without an angel like you,  
Caught in a fire so hot without the rain to make it stop,  
They would paint me a fool in a world that's so cruel,  
Would be hell to go through without an angel like you.

I don't know what on earth I'd do without an angel like you,  
Caught in a fire so hot without the rain to make it stop,  
They would paint me a fool in a world that's so cruel,  
Would be hell to go through without an angel like you.

I don't know what on earth I'd do without an angel like you.
