

# I Love You

Eli Young Band

Some people wish  
Some people dance  
Some never take a chance  
Some people steal  
Just for the thrill  
And some drink to get their fill  
But I love you

Some people preach  
Some people write  
And some choose to just stay quiet  
Some people teach  
Some people roam  
Some would rather be alone  
But I love you, yeah

Some people hurt  
Some people laugh  
And some just don't know what they have  
But I love you

Baby I love you, yeah
