

# I Still Think It's Me

Eli Young Band

In one moment you gave it up  
You decided that this wasn't love after all  
We showed the world we gave it a try  
It didn't work and God knows why  
And now you're off to find someone new  
Wonderin' if there's still someone for you

And I still think it's me  
I still think it's me  
I still believe one day you will see  
We can't fight it or even deny it  
I need every breath you breathe  
I still think its me

You always said you'd end up alone  
Never find a man of your own that's not true  
High and low you searched everywhere  
But along it's been right there  
In front of you for all this time  
Was the man you'd always wanted to find

And I still think it's me  
I still think it's me  
I still believe one day you will see  
That we can't fight it or even deny it  
I need every breath you breathe  
I still think it's me  
I still think it's me.....

And I still think it's me  
I still think it's me  
I still believe one day you will see  
That we can't fight it or even deny it  
I need every breath you breathe  
I still think its me

I still think it's me  
Ohhhhh yeah....I still think it's me  
Ohhhhh yeah.....I still think it's me
