

Life At Best

Eli Young Band

Baby who do you think is better than you
Do you know everything that they go through
Have they taken you on their closet tour
You'll find a few skeletons I'm sure

You think everyone's kickin' up their feet
When you're sold the life of easy street
You gotta make there and then maintain
Improve your lifestyle that its the same thing

Life at best is a struggle
Life at best can be trouble
Store up on love, Stay humble
It's all a guess baby life at best

There's a shortcut for everything these days
Don't fall for the TVs or some magazine page
Not much gets solved with a pill in one take
What you work hard for is the thing that pays
You gotta make it there and maintain
Improve lifestyle and its the same thing

Life at best is anybody's guess
Life at best is anybody's guess
Life at best is anybody's guess
Life at best
