

## Life At Best

Eli Young Band

Baby who do you think is better than you  
Do you know everything that they go through  
Have they taken you on their closet tour  
You'll find a few skeletons I'm sure

You think everyone's kickin' up their feet  
When you're sold the life of easy street  
You gotta make there and then maintain  
Improve your lifestyle that its the same thing

Life at best is a struggle  
Life at best can be trouble  
Store up on love, Stay humble  
It's all a guess baby life at best

There's a shortcut for everything these days  
Don't fall for the TVs or some magazine page  
Not much gets solved with a pill in one take  
What you work hard for is the thing that pays  
You gotta make it there and maintain  
Improve lifestyle and its the same thing

Life at best is anybody's guess  
Life at best is anybody's guess  
Life at best is anybody's guess  
Life at best
