

On My Way

Eli Young Band

Red light traffic standing still
Keeping me from you
Tough days always in this town but this one will soon be through
Cause right around the bend on the porch there by the drive
There's an angel out there waiting to bring me back to life
She always saves me from all of my crazy

Like a heads up penny lying on the ground she'll be shining
Yeah with every little laugh and look she gets me believing
There ain't a worry in my world that won't stop fading
When she's next to me
So I need to be on my way

Red to green and finally I'm moving again
Faster than this backbone should be traveling
Up ahead I see her hand waiving in the air
Faded cut back denim and tangled auburn hair
She opens up the door
All I want and more

Like a heads up penny lying on the ground she'll be shining
Yeah with every little laugh and look she gets me believing
There ain't a worry in my world that won't stop fading
When she's next to me
Where I need to be on my way

She can't sit still for the thrill of the night that's coming on
It's only a matter of time until my troubles are gone

Like a heads up penny lying on the ground she'll be shining
Yeah with every little laugh and look she gets me believing
There ain't a worry in my world that won't stop fading
When she's next to me
Oh can't you see I'm on my way
I'm on my way
