

Armageddon

Elijah Blake

Used to hear your heart beating
Til one day it stopped for no reason
Some' killed the spark, you need it
More air to breathe and more energy

Found a cure for love but you're too far away
Makes it easier when it's hard to say
If we fight together, we could be the play
The colder anything

Baby we're living, you're barely surviving, Armageddon
I'll be your shelter, here till it's over
Baby we're living

Used to hear the rush of explosion
Now it's like we're racing on slow motion
Somehow your touch has been frozen
Guess it was lost on that volcanic eruption

Found a cure for love but you're too far away
Makes it easier when it's hard to say
If we fought together, we could be the plague
The cold air, anything

Baby we're living, you're barely surviving, Armageddon
Pride isn't open, I'll be your shelter until it's over
Baby we're living
