

Species

Eliot Sumner

Find me a definition
I'm confident when I'm not
I have foreign specifications
I have foreign specifications
I want a classification
Provide me with a tide
If that's the key to survival here
Does it help you understand
I'm not sure about the species
I'm not sure about the gender
I'm not sure about the free
I'm not sure about the species

Come inside the exhibition
Come and see what it's all about
We have foreign modifications
We have foreign modifications
They're not sure if this is legal
They're not sure if this was right
They're not sure about the species
They're not sure about the species

Before I fall to pieces
Tell me what's your species
Before I fall to pieces
Tell me what's your species
Before I fall to pieces
Tell me what's your species
Before I fall to pieces
Tell me what's your species

Find me a definition
Or render me unknown
I have modern specifications
I have modern specifications
They're not sure about the species
They're not sure about the gender
They're not sure about the free
They're not sure about the species

Before I fall to pieces
Tell me what's your species
Before I fall to pieces
Tell me what's your species
Before I fall to pieces
Tell me what's your species
Before I fall to pieces
Tell me what's your species

Before I fall to pieces
Tell me what's your species
Before I fall to pieces
Tell me what's your species
Before I fall to pieces
Tell me what's your species
Before I fall to pieces
Tell me what's your species

Tell me what's your species
Tell me what's your species
