Where You Belong

Don't weep Just see Come here Call me Just follow No sorrow You're there Where you belong It's where you belong Don't you see When memories are gone Sent to be free Always be aware Of your memories They do appear when you can't bear It's where you belong Don't you see When memories are gone Sent to be free Mean and cruel They drive you in Forget them all And you will win It's where you belong Don't you see When memories are gone Sent to be free
