

A Little Over Zero

Elisa

What shall I do, just to feel
A little over zero, a little over
Now that I am sadness
Now that I am weakness
Gonna walk like it's forever
Gonna walk just because it will save me
And my fragility could kill me
Is this the best I can be?
Is this the best I can be?

Cause I wanna break out, and just live my life
Yeah, I wanna wake up, and find out I'm alive

A saint for each bone
Would be magical
It would feel so all consuming
That I'd burn up just like paper
And my serenity it will kill me so
Is this the best I can be?
Is this the best I can be?

Cause I wanna break out, and just live my life
Yeah, I wanna wake up, and find out I'm alive
I wanna break ou and just live my life
I wanna wake up and find out I'm alive, alive, alive

Is this the best I can be?
Is this the best I can be?
Is this the best I can give to you?
Is this the best I can give to you?
