

## A Little Over Zero

Elisa

What shall I do, just to feel  
A little over zero, a little over  
Now that I am sadness  
Now that I am weakness  
Gonna walk like it's forever  
Gonna walk just because it will save me  
And my fragility could kill me  
Is this the best I can be?  
Is this the best I can be?

Cause I wanna break out, and just live my life  
Yeah, I wanna wake up, and find out I'm alive

A saint for each bone  
Would be magical  
It would feel so all consuming  
That I'd burn up just like paper  
And my serenity it will kill me so  
Is this the best I can be?  
Is this the best I can be?

Cause I wanna break out, and just live my life  
Yeah, I wanna wake up, and find out I'm alive  
I wanna break ou and just live my life  
I wanna wake up and find out I'm alive, alive, alive

Is this the best I can be?  
Is this the best I can be?  
Is this the best I can give to you?  
Is this the best I can give to you?
