

## And All I Need

Elisa

It's just a thought but I'm feeling a little lost here  
It's just a cloud but... I feel kind of down  
God knows the things I'd do for you...

And all i need is to go back to the start  
Just erase our time apart  
'n make sure that it's still you  
and I'll be speaking to your heart

it's just a chill but it feels like I'm alone here  
cause it's not hard to... turn somebody into a dream  
and then a dream into someone...

And all I need is to go back to the start  
Just erase our time apart  
'n make sure that it's still you  
and I'll be speaking to your heart  
and all I need is to find out who you are  
is to find out why you hide  
cause i was sure that it was you  
and what i saw then was your heart  
your heart...  
your heart...

And all I need is to go back to the start  
Just erase our time apart  
'n make sure that it's still you  
that I'll be speaking to your heart  
and all I need is to find out who you are  
is to find out where you hide  
cause I was sure that it was you  
and what I saw then was your heart  
your heart...  
your heart...
