God Only Knows

What I'm seeing.....Is it real? What I'm feeling.....Is it real? What I'm doing.....Is it real?

There is no regrets, satisfy my curiosities There is a new world waiting, explore my possibilities There is no guarantee, just improve my abilities There is a choice to make, setting the right priorities

There is no regrets, satisfy my curiosities There is a new world waiting, explore my possibilities There is no guarantee, just improve my abilities There is a choice to make, setting the right priorities

I was sitting and thinking the other day If I fail, I won't throw my passion away Just 'cause giving up is not the only way No matter how it's gonna be, I'll try it anyway

Love is such a sweet illusion (Let's come together) Can't seem to stop my imagination (Goes on forever) What a ridiculous situation (Another matter) But I can't deny, I'm faced with a tricky temptation

In the world that keeps on changing Don't know why my heart is aching Gotta handle it, no more hesitation There can be no turning back

God only knows "My mind is as free as the wind But now what I should do is to fall in love"

God only knows "I don't need that kind of real things Feels like I'm lost in the labyrinth"

God only knows "There must be the meaning of life Somehow unexpected happenings thrill me"

God only knows "Just believe in myself and my dream Anyone could be a hero and heroine"

God only knows "Though it's not so easy to get through Here I am, I'm sure that things will go my way"

God only knows "My mind is as free as the wind But now what I should do is to fall in love"

God only knows "I don't need that kind of real things Feels like I'm lost in the labyrinth"

Elisa

God only knows "There must be the meaning of life Somehow unexpected happenings thrill me"

God only knows "Just believe in myself and my dream Anyone could be a hero and heroine"

God only knows "Though it's not so easy to get through Here I am, I'm sure that things will go my way"

I feel that my spirits rise I will survive and just stay alive Enjoy being alone, the isolation is not always so bad Another day has gone by, every day goes by In the sky, there'd be a bridge to a bright tomorrow

Think about my love and my life In an uncertain world, face to face with myself Continue to make progress, day by day and step by step I've got a good feeling So I'm gonna keep on trying, life will go on.....
