

A shower of pure joy  
A shower of pure joy  
A shower of pure joy

We'll walk all the way down this road  
We'll hold each other's hands  
We'll watch all the colours and their fades  
And sometimes we'll swallow discomfort  
to be happy

A shower of pure joy  
A shower of pure joy  
A shower of pure joy  
A shower of pure joy  
(Love is all, all we want)

For a while we'll stay in the warmth  
Then as we know it'll snow  
So we'll dream and we'll rest face to face  
And sometimes we'll stay there in silence  
Like we never spoke

A shower of pure joy  
A shower of pure joy  
A shower of pure joy  
A shower of pure joy  
(Love is all, all we want)

I can shine like the Sun  
if you'll be the only one waterfall  
Where my light will shine on  
(A shower of pure joy...)

I can shine like the Sun  
if you'll be the only one waterfall  
Where my light will shine on  
Pure joy  
A shower of  
pure joy

A shower of pure joy  
A shower of pure joy  
A shower of pure joy  
(Love is all, all we want)

'cause I can shine like the sun  
if you'll be the only one waterfall  
where my light will shine on

A shower of pure joy  
A shower of pure joy  
A shower of joy  
A shower of pure joy

A shower of pure joy
