

Ready Now

Elisa

Push me pull me round and round
and i'll think of the rest
there's no limit to the fun
oh, isn't it the best?
You're the one and the only in control
the master and the slave
but let's pretend we are all the same
not true but kind to say
think i'm ready now, if it takes brains
you can crush me down
but i'll come right back
'cause i'm ready now, an empty soul
you take out the hope and it gets even easier
take me, shake me, hold my wrists
'cause i'm the one to chase
if worst comes to worst
you can erase me fade away
you don't want to hear my voice
go on have it your way
you say equal efforts equal rights
that's all you like to say
think i'm ready now, if it takes brains
you can crush me down
and i'll come right back
'cause i'm ready now, an empty soul
take out the hope and it gets even easier oh yeah
feel so ready feel so ready i'm so ready now
feel so ready feel so ready i'm so ready now
was born ready was born ready
was born ready you know...?
I feel so ready now if it takes brains
you can crush me down
but i'll come right back
'cause i'm ready now, an empty soul
you take out the hope and it gets even easier
oh oh oh oh...
Feel so ready now feel so ready now i'm so ready now
was born ready was born ready
