

Shadow Zone

Elisa

There are shadow zones all around...

we danced thick as trees still prisoners of wood
and in between the smoke and vines on the dance floor there he stood
I could see in your eyes you're the one to burn it all down
and I want to be there, yes I want to be there

so I start the hunt you scent's in my mouth
and my thoughts are in the mud
there's quicksand all around me but your rhythm's filled my blood
I can see by your moves you're the one to burn it all down
and I want to be there, yes I want to be there

here I feel your breath but I can't see you
oh I guess you're here but I can't touch you
here I feel your breath but I can't see you
oh I guess you're here but I can't touch you

there's a jungle in motion it looks like a dancer
there's a jungle in motion it looks like a dancer
there's a jungle in motion it looks like a dancer
there's a jungle in motion it looks like a dancer

animals encircle trading fur for skin
and I've been told you're too much for me
but this camouflage is wearing thin
I can tell by you touch you're the one to burn it all down
and I wanna be there, yes I wanna be there

here I feel your breath but I can't see you
oh I guess you're here but I can't touch you
here I feel your breath but I can't see you
oh I guess you're here but I can't touch you

There's a jungle in motion it looks like a dancer
There's a jungle in motion it looks like a dancer
There's a jungle in motion it looks like a dancer
There's a jungle in motion it looks like a dancer

shadows are blindfolds and the pulse is so extreme
your skin's like heaven down on me and there is nothing in between
I can feel from your hips you're the one to burn it all down
and I want to be there, I wanna be there

here I feel your breath but I can't see you
oh I guess you're here but I can't touch you
here I feel your breath but I can't see you
oh I guess you're here but I can't touch you

there's a jungle in motion it looks like a dancer
There's a jungle in motion it looks like a dancer
there's a jungle in motion it looks like a dancer
There's a jungle in motion it looks like a dancer
there's a jungle in motion it looks like a dancer
There's a jungle in motion it looks like a dancer
there's a jungle in motion it looks like a dancer
There's a jungle in motion it looks like a dancer

there's a jungle in motion
