

# Time

Elisa

Monday, Tuesday, Wednesday (Saturday)

Time will ask, time will fly  
Time will give you wings like a butterfly  
You wanna go for something crazy  
I'll take you out of here

Time will be, time has passed  
Time will make the first be the last  
And it'll shake your mind off your body  
So let it go then

I wanna see your face  
in the morning when you wake up  
And when you see my eyes  
You will see there's nothing made up

'cause I just wanna get high  
'n lose control  
Get together and let it all be, yeah  
I just wanna get high  
'n lose control  
Get together and let it all be, yeah

Time will eat, time will sleep  
Time will stick in your head  
Just like a beat  
And it's not gonna wait for you  
So may you never wait for it
