

Your Manifesto

Elisa

You think I can't see
you think I can't hear
you think I won't know
how you wanna lead
how you only want control
you are a clown
you like to frown wearing your crown
and pulling me down
is making you feel so high

Your manifesto's just a psychosis
really impressive, well done placebo
It's terrifyin'...

You want me to see your majesty
step on my feet
get into my head to tell me
who I should be
scatter your word in little crumbs
You think I'm a bird?
You think I won't give up
anything in return...

Your manifesto's just a psychosis
Really impressive, well done placebo
