Back To Me

Elissa

You've played your game for too long
I never thought you'd do this to me
I'm thinking this was so wrong
I only live with all that's dear and true to me
You've hurt me for the last time
When my heart mends, I find
You always keep on haunting me
Let go of the past
Don't ever look back
Is that the way it has to be

My love, set me free
From all this hurt inside of me
Someday, I will see
If you will find your way right back to me

You've played me too many times
I can't believe your love wasn't true
I trusted you with my heart
And now there's nothing, I can do or say to you
You've hurt me for the last time
When my heart mends, I find
You always keep on wanting me
Let go of the past
Don't ever look back
Is that the way it has to be

You've hurt me for the last time
When my heart mends, I find
You always keep on wanting me
Let go of the past
Don't ever look back
Is that the way it has to be
