Caves

Elitist

Don't turn the corner
 Close your thoughts and take in only darkness
 You can't spark what is not really there, let it consume you
 The sounds of no one there
 Feel the breath of your raging fear
 The sounds of no one there
 Feel the breath of your raging fear

 The demons are getting closer, the blood boils within your vei
ns
 Feel yourself turn away
 Feel yourself cry in pain
 Undertake the struggle and solve conflict

 Every single breath you take, you take in what fears you most,
 in this dying
 world
 There is no reason, it's only isolation
 You are alone
 Are you strong enough?

 Rise above the tide

 Let there be light
 Surrounded by darkness
 Let there be light

 The demons are getting closer, the blood boils within your vei
ns
 Let there be light upon this earth

 There is no reason, there's isolation
 You are alone

 Don't turn the corner, close your thoughts
 Take in darkness
