

# Let It Rain

Eliza Doolittle

I found my way with bad directions  
I've done my best, and I learned my lessons  
And I know I can do this, again and again  
So, let it rain, just let it rain, just let it rain on me  
So, let it rain, just let it rain, just let it rain on me

Got a feeling of falling, like in a bad dream  
What's the meaning, the calling, 'cause nothing is what it seems.  
And I won't ever know, so I take the time, 'cause it won't stop taking mine

I don't know what a winner is, but I want to be one.  
Would I ever really know, if I didn't get me some?

'Cause I found my way with bad directions  
I've done my best, and I learned my lessons  
And I know I can do this, again and again  
So, let it rain, just let it rain, just let it rain on me

What the signs are saying, over and over  
If you fear it, you should face it  
But my fear has the face of you.

I want to make, make you proud  
Those the only words, that I care, care about

I don't know what a winner is, but I want to be one.  
Would I ever really know, if I didn't get me some?

'Cause I found my way with bad directions  
I've done my best, & I learned my lessons  
And I know I can do this, again and again  
So, let it rain, just let it rain, just let it rain on me  
So, let it rain, just let it rain, just let it rain on me

I see your face in the crowd  
All I want to do is make you proud  
And they can say what they want  
Those are the only words that I care about  
If I can't fight, I still stand,  
So you can see who I am  
Come gather 'round, quiet down, do you hear that sound?

Just let it rain on me.  
Just let it rain on me.  
Just let it rain on me.  
Just let it rain on me.

I know I can do this, again and again  
So, let it rain, just let it rain, just let it rain on me  
So, let it rain, just let it rain, just let it rain on me  
So, let it rain, just let it rain, just let it rain on me  
So, let it rain, just let it rain, just let it rain on me
