

# Always Tomorrow

Elizabeth Cook

If you don't like the way things are  
You can wish upon a star  
There's always tomorrow

Things don't work out like you planned  
And you've had all you can stand  
There's always tomorrow

Oh on your bad days there's always tomorrow

You got the whole world by the tail  
And it seems like you can't fail  
There's always tomorrow

Oh on your best days there's always tomorrow

(Instrumental)

When you finally leave this place  
This'll be your saving grace  
There's always tomorrow

Oh on your bad days there's always tomorrow

And on your best days there's always tomorrow

Oh and come what may, there's always tomorrow

(Instrumental)
