

# Break The Chain

Elkie Brooks

(Break the chain now, come and break the chain now)  
(Break the chain now, come and break the chain now)

I been waitin' boy to to do some talkin'  
To lay it on the line, talk love or start walkin'  
There'd be no better love if only you would free it  
To start the fire, love this is how I see it

If there's a mountain in our way, babe  
(We could break it down)  
We could keep the tide at bay, babe  
(We could turn it round)  
I can't do it on my own now  
Don't you know that it takes two  
While we stand face to face  
I'll tell you what we got to do  
What we got to do

Let's break the chain  
Let's break the chain  
Don't fall in love to fall out again  
Why do you lead me in this crazy dance  
Just give it up and give our love a chance  
All the heartache will be worth the pain  
Say there'll be no more fighting  
No more lovin' in vain  
Come on baby  
Break the chain

(Breaking - break the chain)

Why do we fall in love only to break up  
And if that ain't enough, we fight and then we make up  
And boy if you don't give what you expect to take out  
We got a chance to fly but first we got to break out

And if there's a fire all around us  
(Love put out the flame)  
I will show that love has found us  
(Just you call my name)  
You come out and say it, be loved or be free  
Come on and stay and take this love from me  
If we can find the key

Let's break the chain  
Let's break the chain  
Don't fall in love to fall out again  
Why do you lead me in this crazy dance  
Just give it up and give our love a chance

All the heartache will be worth the pain  
Say there'll be no more fighting  
No more lovin' in vain  
Come on baby  
Break the chain

(Breaking - break the chain)

(Breaking - break the chain)

(Break the chain now - come and break the chain now)

(Break the chain now - come and break the chain now)

Let's break the chain

Let's break the chain

Don't fall in love to fall out again

Why do you lead me in this crazy dance

Just give it up and give our love a chance

All the heartache will be worth the pain

Say there'll be no more fighting

No more lovin' in vain

Come on baby

Break the chain

(Breaking - break the chain)

(Break the chain now - come and break the chain now)

(Break the chain now - come and break the chain now)

(Break the chain now - come and break the chain now)
