

Even If

Ella Eyre

I took it all for granted
I know what I did
What I became
But even you
You did some damage
With all of those things
That you used to say

It's funny how
The bigger deal
Is smaller now
Smaller than it was before
But baby now I figured out
That all that we could talk about
Was wanting more

But even if we'll never find the time
And even if we'll never get it right
I know I am glad I was able
To be by your side
And even if the stars come align
You know where I am
You know where I am

We've never had it easy
You have your ways
And I sure have mine
And only you could ever see it
See through the walls
That I hide behind

It's funny how
The bigger deal
It's nothing now
Nothing how it was back then
If only I have realised
That all that we have compromised
Was all we had

But even if we'll never find the time
And even if we'll never get it right
I know I am glad I was able
To be by your side
And even if the stars come align
You know where I am
You know where I am

But all that could matter
Is still somewhere here
The pieces were shattered
Some are still near
I said I would never
Hold on to you
But you hold on to me

But even if we'll never find the time
And even if we'll never get it right

I know I am glad I was able
To be by your side
And even if the stars come align
You know where I am
You know where I am
