

Stuck on a crossroad, you're moving too slow
And everyone knows, but you
People on pavements they're passing you by
City of life-changing lies

Now you see green light, but you don't go
Into the wrong direction
Can't see what the mirror shows
He lost our own reflection
It's just like he'll be ...
Green light and you don't go

Here I am and I'm stuck inside a traffic jam
Nowhere I think ever gonna make it with you
No, we were never meant to make it as two
Slow down, I can't keep racing
Slow down, there's no way back around
Never gonna make it no, never gonna make it with you
No, we were never meant to make it as two

Slow in the motion, put on a brake
How long can I wait, for you
Patience is broken, you run out of time
City of life-changing lies

Don't you see green light, but you don't go
Into the wrong direction
Can't see what the mirror shows
He lost our own reflection
It's just like he'll be ...
Green light and you don't go

Here I am and I'm stuck inside a traffic jam
Nowhere I think ever gonna make it with you
No, we were never meant to make it as two
Slow down, I can't keep racing
Slow down, there's no way back around
Never gonna make it no, never gonna make it with you
No, we were never meant to make it as two

Slow down, I can't keep up he says
Slow down, there's no way back around
And now you see, and now you see
Now you see, there's nothing left in me, left in me

Here I am and I'm stuck inside a traffic jam
Nowhere I think ever gonna make it with you
No, we were never meant to make it as two
Slow down, I can't keep racing
Slow down, there's no way back around
Never gonna make it no, never gonna make it with you
No, we were never meant to make it as two
