

# Empire

Ella Henderson

(Build on love and we'll...)

I see your light  
I know it's coming and I'm terrified  
No more defences here to hide behind  
Oh, just you and I  
And through the smoke  
I see you burning like a ray of hope  
I found the fire now the ashes glow  
Oh, I come alive

And now that I'm awake  
I'm not afraid  
I'm letting go tonight

'Cause we found strength in each others' arms  
We built this love and we made it our  
Empire, empire, empire  
And you and I can rule each others' hearts  
We'll build on love and we'll make it our  
Empire, empire, empire

Stone by stone  
We'll build a tower we can call our own  
So high that we'll forget the world below  
Oh, just you and I, I  
So let the drums roll  
The cannons blow  
We're letting go tonight

'Cause we found strength in each others' arms  
We built this love and we made it our  
Empire, empire, empire  
And you and I can rule each others' hearts  
We'll build on love and we'll make it our  
Empire, empire, empire

They'll never take it down  
Take it down  
Burn it down  
Burn us down  
Take it down  
Take down our empire  
They'll never take it down  
Take it down  
Burn it down  
Burn us down  
Take it down  
Take down our empire

'Cause we found strength in each others' arms  
We built this love and we made it our  
Empire, empire, empire  
And you and I can rule each others' hearts  
We'll build on love and we'll make it our  
Empire, empire, empire

They'll never take it down  
Take it down  
Burn it down  
Burn us down  
Take it down  
Take down our empire
