

# The First Time

Ella Henderson

Somebody told me they saw you with her  
They even called out my name  
Thinking I was that girl  
She wears the same kind of make up  
And the same colour hair  
Well she's a wannabe me  
And she's even got it down to the clothes I wear

So you can try to replace me  
And start all over again  
But what you just don't understand

You had it right the first time  
But you weren't satisfied  
I gave you all of me  
So you had no reason to think twice  
You had it right the first time  
But you were so blind  
'Cause there'll never be no better me to find  
You had it right the first time

She can wear the same perfume  
And she can hold your hand  
Yeah she can make you smile but not the way I can  
I hope she doesn't get used to being so attached  
'Cause she will never be me, no  
So it just won't last

So you can try to upgrade me  
Yeah you can dream like that  
But you might as well face the fact

You had it right the first time  
But you weren't satisfied  
I gave you all of me  
So you had no reason to think twice  
You had it right the first time  
But you were so blind  
'Cause there'll never be no better me to find

You can keep searching around  
Thinking that we're all the same  
But I'll always be the best you found  
And that's one thing that just won't change  
'Cause there'll never be no better me, oh no  
No, there'll never be no better me, oh no

You had it right the first time  
But you weren't satisfied  
I gave you all of me  
So you had no reason to think twice  
You had it right the first time  
But you were so blind  
'Cause there'll never be no better me to find  
No, 'cause there'll never be no better me to find  
And now I gotta tell you  
There'll never be no better me to find

You had it right the first time
