

# Can't Be Loved

Elle King

Quit trying to love me  
I done told you I'm not the one  
Baby please quit trying to love me  
You should know you were just some fun  
Can unlock my heart don't you even start to try to get in my head

It's dark and it's black  
And I can never get back  
To way I used to love  
My heart it just ain't right  
But I try with my might  
But I just can't be loved

Baby please let's make this is easy  
Ain't too hard to forget about me  
And after I'm gone  
It'll be just that easy  
To get yourself someone  
A little better than me

It's dark and it's black  
And I can never get back  
To way I used to love  
My heart it just ain't right  
But I try with my might  
But I just can't be loved

My heart it just ain't right  
But I try with my might  
But I just can't be loved  
Just can't be loved  
Just can't be loved  
Can't be loved
