

# Wild Love

Elle King

Love is a kiss  
Love is a risk  
Love might be our redemption, woah  
Love is on time  
Love is not blind  
Love might be our addiction, woah

Let's make some noise  
Give it away  
You call me craze  
That's why you stay, oh

Takes love to know love, doesn't it  
Maybe we should love for the fun of it?  
Ooh baby for the fun of it  
La la la la la la love you all day like  
Take love for no love, doesn't it  
Maybe we should love for the fun of it  
Ooh baby for the fun of it  
La la la la la la love you all day  
Wild love  
Ooh will you give me  
Wild love  
Ooh I got your  
Wild love  
I really wanna la la la love you all day

Love is a cure  
Love is for sure  
Love might keep us here together  
Might be the one  
Jump in a gun  
But I feel like love can last forever  
So love again and again, yeah

Let's make some noise  
Give it away  
You call me craze  
That's why you stay, oh

Takes love to know love, doesn't it  
Maybe we should love for the fun of it?  
Ooh baby for the fun of it  
La la la la la la love you all day like  
Take love for no love, doesn't it  
Maybe we should love for the fun of it  
Ooh baby for the fun of it  
La la la la la la love you all day  
Wild love  
Ooh will you give me  
Wild love  
Ooh I got your  
Wild love  
I really wanna la la la love you all day

Love might be our redemption

Takes love to know love, doesn't it
