

Feel Like A Woman

Elle Varner

See I been in love a few times and everytime it was with you

I ain't complainin, ain't got no reason to complain
My breath is taken
Baby you got me sayin damn, what a difference between a boy and a man
Can't believe I been missin this all along
It's so wrong, so good
Had to put you in a love song

I don't really know what your doin
But I feel like a woman with you
Feel like a woman with you
And I can only pray you ain't foolin
Ooooh
Like so many other brothers would do
Like so many others would do

I can't explain it
And yet there's so much to explain
Since I been taken
Baby you got me sayin damn
What a difference between a boy and a man
Can't believe I been missing this all along
It's so strong, so good
Had to put you in a love song

I don't really know what your doin
But I feel like a woman with you
Feel like a woman with you
And I can only pray you ain't foolin
Ooooh
Like so many other brothers would do
Like so many others would do

You know I love you baby right
OK, OK
It seems I got you feeling oh so feminine
First lady Michelle'n it
Tory Burkes, Tiffany blue boxes is your evidence
See you reap the benefits of me stackiin up my presidents
An dI perform with such excellance, these other brothers irrelevant
Sip slow let that settle in, I give you kisses that heaven sent
Give you love of like seven men
Yeah I'm getting your messages, like where you at, come through
I know what I'm doin I could write a book too
Slap my photo on the back of that man
Major got you coming back for that thing, I'm just saying

I don't really know what your doin
But I feel like a woman with you
Feel like a woman with you
And I can only pray you ain't foolin
Ooooh
Like so many other brothers would do
Like so many others would do
