

# I Don't Care

Elle Varner

I'm gonna lose this game  
I've got no poker face  
I'm not designed for this, this, this  
If I could speak in code  
I wouldn't be so bold  
I can't control my lips, lips, lips  
I've never been so alone  
I tend to be too loud but  
I'm not ashamed of my words

Clearly I'm going, I'm going  
Into the deep end  
Far over my head  
It's so unfair  
I'm goin' and it's showin'  
All over my skin  
Everyone knows  
He's gone and it shows  
But I don't care

How do you make me smile  
Simply by tellin' the time  
You got the zealous size, eyes, I  
I could just stare all day  
Lay there and melt away  
I'm such a helpless case, case, case  
I've done away with my pride  
They say I'm out of my mind  
Can't even say it's a lie

Clearly I'm going, I'm going  
Into the deep end  
Far over my head  
It's so unfair  
I'm goin' and it's showin'  
All over my skin  
Everyone knows  
He's gone and it shows  
But I don't care

Going, going, going, going  
Into the deep end, into the deep end  
Going, going, going, going  
Far...

Clearly I'm going, I'm going  
Into the deep end  
Far over my head  
It's so unfair  
I'm goin' and it's showin'  
All over my skin  
Everyone knows  
He's gone and it shows  
But I don't care
