

Is it something I can see, is it something I can touch  
Is it something I can feel  
Is it something I can hear, is it something I can smell  
Is it something I can trust

Before the surface dries out, before the palace burns  
down  
Before your world is overwhelmed  
Before the surface dries out, before the palace burns  
down  
Before your world is overwhelmed

Is it something I can do, is it something I can learn  
Is it something I can find  
Is it something I can fix, is it something I can solve  
Is it something I can prove

Before the surface dries out, before the palace burns  
down  
Before your world is overwhelmed  
Before the surface dries out, before the palace burns  
down  
Before your world is overwhelmed

You scream out, I hear that  
Our time is running out so fast  
Wings burning, I'm fallin  
Our time is running out so fast

Is it something I can see, is it something I can touch  
Is it something I can feel  
Is it something I can hear, is it something I can smell  
Is it something I can trust

Before the surface dries out, before the palace burns  
down  
Before your world is overwhelmed  
Before the surface dries out, before the palace burns  
down  
Before your world is overwhelmed

You scream out, I hear that  
Our time is running out so fast  
Wings burning, I'm fallin  
Our time is running out so fast
