

Can You Feel Like I Do

ELLEGARDEN

Another day is coming, so I wake up
think of what I said, before I think of you
We're almost crossing ourselves
You had your own conviction
I'm not quite as well yet

Something makes you tell you
it's quite inexplicable
but I know how you were back in my life
on that point we agreed there someone treat you better
than I
did

Can you feel like I do?
I still hope you're happy
Can you feel like I do?
In the end I..
can you feel?

I wonder if I knew that you were beside me
Lots of Lots of Lots of words that are unsaid
You know I still look beautify
Can you still feel like I do?
It makes me wonder if it is too late
Is it too late to
now that you are gone now

I wondered if I knew that you were beside me
I wonder if I'm an old lad, you are leaving me Can you
feel like
I do?
I still hope you're happy
Can you feel like I do?
In the end I..

Can you feel like I do?
I still hope you're fine
Can you feel like I do?
In the end I...
Can you feel?
