

Stay away I'm in a bad mood
I know why but I can't explain
You don't mind
It's not your fault
It has nothing to do with you
So try not to say anything
It will not work anyway
All I crave is my own destruction

Oh Jamie Oh Jamie
What is it all about
You know I never wanted this
Oh Jamie Oh Jamie
What a fuck is it all about
You know I never wanted this
You hear me

Don't get close to me
My head is about to burst
I am sinking down too fast
There is nothing good about it
But what else can I do in this crazy mixed up world
All I crave is my own destruction

Oh Jamie Oh Jamie
What is it all about
You know I never wanted this
Oh Jamie Oh Jamie
What a fuck is it all about
You know I never wanted this

Somewhere in town
Someone is dying
But all I can hear is the din
I feel so numb

You shup up and look around
See how people are disturbed today
And even in my blood I find the sickness
I wish the knife cut your wrist will not go deep
It's OK
I'll be fine
This too will end soon

Oh Jamie Oh Jamie
What is it all about
You know I never wanted this
Oh Jamie Oh Jamie
What a fuck is it all about
You know I never wanted this
Oh Jamie Oh Jamie
What is it all about
You know I never wanted this
Oh Jamie Oh Jamie
What a fuck is it all about
You know I never wanted this
You hear me
