

# Marie

ELLEGARDEN

Seventeen nights away  
She's leaving  
Cause everything she found was fake

Oh tell me why  
I don't know why  
Why does she have to leave  
No one has told me  
She's ended up there

All I can do to is to keep being here

Marie my friend  
Marie my friend  
I sing for you  
Marie my friend  
Marie my friend  
This is your song

Seventeen skies away  
She's falling  
Cause everything she had has gone

Oh tell me why  
I don't know why  
Why does she have to leave  
No one has told me  
She's ended up there

All I can do to is to keep being here

Marie my friend  
Marie my friend  
I sing for you  
Marie my friend  
Marie my friend  
This is your song

Couldn't take your hand  
I should've done this before  
I'm so stuck now  
You changed my world  
Don't go away like this

Oh tell me why  
I don't know why  
Why you have been so strong  
No one has held you  
But you spread your wings

All I can do to is to keep being here

Marie my friend  
Marie my friend  
I sing for you  
Marie my friend  
Marie my friend

This is your song
