

We've Got This Hope

Ellie Holcomb

We've got this hope
We've got a future
We've got the power of the resurrection living within
We've got this hope
We've got a promise
That we are held up and protected in the palm of His hand

And even when our hearts are breaking
Even when our souls are shaken
Ohhh, we've got this hope
Even when the tears are falling
Even when the night is calling
Ohhh, we've got this hope

And we're not alone
Our God is with us
We can approach the throne with confidence 'cause He made a way
When trouble comes
He'll be our fortress
We know that those who place their hope in Him will not be ashamed

And even when our hearts are breaking
Even when our souls are shaken
Ohhh, we've got this hope
Even when the tears are falling
Even when the night is calling
Ohhh, we've got this hope

Our hope is grounded in an empty grave
Our hope is founded on the promises that He made

Even when our hearts are breaking
Even when our souls are shaken
Ohhh, we've got this hope
Even when the tears are falling
Even when the night is calling
Ohhh, we've got this hope
Ohhh, we've got this hope...
