

Carry On

Elliot Minor

it's casting a silhouette as the shadow hits the wall,
it's bearing a burden of what we had before,
i'm slowly weakening,
i'm crashing out,
i'm holding on as we fall down.

carry on this isn't over,
what was i thinking of?
i was out of line,
and i would never go,
carry on, carry on

you soaked your cigarette,
the rain's hitting at all cost,
you said "i've had shallow days,
but never have felt lost"
and i can't hide that something's gone,
but we don't need no gospel song,
you know that i, i just want to carry on.

carry on, this isn't over,
what was i thinking of,
i was out of line,
and i would never go,
carry on, carry on

on my knees,
life's just not worth living,
i'm on my knees for you.
