

## Carry On

Elliot Minor

it's casting a silhouette as the shadow hits the wall,  
it's bearing a burden of what we had before,  
i'm slowly weakening,  
i'm crashing out,  
i'm holding on as we fall down.

carry on this isn't over,  
what was i thinking of?  
i was out of line,  
and i would never go,  
carry on, carry on

you soaked your cigarette,  
the rain's hitting at all cost,  
you said "i've had shallow days,  
but never have felt lost"  
and i can't hide that something's gone,  
but we don't need no gospel song,  
you know that i, i just want to carry on.

carry on, this isn't over,  
what was i thinking of,  
i was out of line,  
and i would never go,  
carry on, carry on

on my knees,  
life's just not worth living,  
i'm on my knees for you.
