

# Still Figuring Out

Elliot Minor

Intro

Still figuring out, how to stay like this forever  
Still figuring out, today, today, yeah  
Just cruising around, and knowing that we will never go our separate ways

Verse

This is how its meant to be  
Releasing misery  
A straight mind is all i need  
To walk on my own feet

Were falling out of time  
My memories unwind  
This sleep that we've been in is beating up your mind

Bridge

Lets play a song for everyone and dont let go  
Lets play the song all night long

Chorus

Still figuring out, how to stay like this forever  
Still figuring out, today, today, yeah  
Just cruising around, and knowing that we will never go our separate ways

Verse

Days and nights, they feel so good  
Just like the way they should  
Those crazy nights that were left behind were so misunderstood

A missing photograph  
Never thinking of the past  
Well theres a lot to see, and there's only one path

Bridge

Lets play a song for everyone and dont let go  
Lets play the song all night long

Chorus

Still figuring out, how to stay like this forever  
Still figuring out, today, today, yeah  
Just cruising around, and knowing that we will never go our separate ways  
Still figuring out, how to stay like this forever  
Still figuring out, today, today, yeah  
Just cruising around, and knowing that we will never go our separate ways

We will go our separate ways X4

Solo

verse Chords

Chorus

Still figuring out, how to stay like this forever  
Still figuring out, today, today, yeah  
Just cruising around, and knowing that we will never go our separate ways

Still figuring out, how to stay like this forever  
Still figuring out, today, today, yeah  
Just cruising around, and knowing that we will never go our separate ways
