We arrived too late Our mouths were opening I turned off the light So come on night You're a witness you You've seen me interrupt A good old fashioned fight

So come on night Everyone is gone Home to oblivion Home to oblivion

Home to oblivion Watched the dying day Blushing in the sky Everyone is uptight

So come on night Everyone is gone Home to oblivion Home to oblivion

Home to oblivion I know we're not Illegitimate In our hearing

So come on So come on night
