

# I'll Be That Bridge

Elliott Yamin

If you need a helping hand  
Along the way  
And I'm the one

I'll be your soldier  
I'll fight all your best  
Till' freedom come

And if you need some shelter  
Cause, Coming storm  
I'll be your cover keep ya,  
Safe and warm

I'll be closed by  
Any time, Night or day

And that what make me believe  
Baby...  
And you can count on me

I'll be that bridge  
That take's you over the mountain  
I'll lift you up  
And take you over the top

And if you need to get to Heaven,  
baby, it's not too far  
I'll be that bridge  
For you

Now if you need somebody  
You can talk to all night  
You know I'm here  
I'll listen to your politic  
I'll lending ears  
And if you caught hit by the weather  
You got a flu  
I'll be that medicine that  
Put you through  
All you got to do is  
Recharge  
I'll be there

Ain't no reason to emphasize  
Cause I'll be  
I'll be standing right there

I'll be that bridge  
That take you to over the mountain  
I'll lift you up  
And take you over the top

And if you need to go to heaven  
Baby, it's not too far  
I'll be that bridge  
I'll wish you all my heart  
So you can cross over

My love will show you way  
And when you're tired and weaked  
And you need someone's comfort  
Just listen  
To what I said

I'll be that bridge  
That take you to over the mountain  
I'll lift you up  
And take you over the top

And if you need to get to heaven  
Baby, it's not too far

I'll be that bridge  
That put you over to the mountain  
I'll lift you up  
And take you over the top

And if you need to get to heaven  
Baby, it's not too far  
I'll be that bridge  
For you  
For you  
For you
