## I'll Make You Dance

I can't help but noticing Your fine as fine can be And when your out there on the floor Gonna break my neck to see Tryin' to control myself But it's hard as hard can be I want to make my way to you eventually

Cause baby we can let the music play oh While we're waiting for a song you like We can take it to the dance floor Do whatver makes you feel alright

I'll make you dance Dance all night If you want me to Just give me the chance To make it right We can find a groove I'll make you dance, Dance all night

If you think I'm watching you Your right as right can be The way you move that thing around Is a dog gone sight to see Can't stand to see you walk away Sure love to watch you leave I go to have my way with you definitely

Cause baby we can the music play oh While we're waiting for a song you like We can take it to the dance floor Do whatever makes you feel alright

Cause I'll make you dance, Dance all night If you want me to Just give me the chance To make it right We can find a groove

I'll make you dance, Dance all night If you want me to oh yeah Just give me the chance To make it right We can find a groove

Baby if you wanna we can have a good time Baby if you want it we can do it all night Baby if you wannna we can have a good time Baby if you want it we can do it

Cause I'll make you dance, Dance all night If you want me to

## **Elliott Yamin**

Just give me the chance To make it right We can find a groove

I'll make you dance
Dance all night
If you want me to oh yeah
Just give me the chance
To make it right
We can find a groove
I'll make you dance
Dance all night
