

Every Train That Passes

Elliott

Seasonal its gonna change seasonal
Its back and forth again cure the cause
Cause will change cure it all will be back again
Seasonal its all the same seasonal right here
Seasonal you're gonna change seasonal right in front of me
Feel you made a mistake

See these colors will change right in front of me
The stars have warned if the stars are made
While the sailors gone

Then the bow will break around
The lunar moon if the sun has changed
By the time I'm gone then I'm to blame
For the set of one and the stars were made right in front of me
