

## Land And Water

Elliott

Listen around the world. Compress beats that build. Talk, town,  
drowns, in the master plan. Reset my world, keepsake forgotten  
. Reflex of a man, cut off his arms, just to drop all his heart  
strings. Move over waves through the air, land of lonely hills  
forgotten. Blooms that break through winds at rest, place where  
no-one knows their own home. Across the air and over waves. Yo  
u are the world. Talk the town beats you drown. Sold your broke  
n wings for land and water. Across the air and over waves. You  
are the world. You are the world repeating.
