

Love Me Long

Elliphant

People on the street
Used to be you and me
One bullet in your gun
Put it on you and me
(Yeah, yeah, yeah, yeah, yeah)

Do you ever get lonely?
Do you ever get stoned?
But I always been broken
Come on, make me feel at home
Yeah, yeah, yeah, yeah, yeah

If you love me long
If you love me long
If you love me
You can have it all
You can have it all
(You can have it all, baby)
You can have it
If you love me long
If you love me long
(If you love me)
If you love me
You can have it all
You can have it all

I will love you all night, all night
I wanna kiss you all and touch you real nice, baby
People on the streets used to be you and me
Can I comprehend jealous of you and me
Yeah, yeah, yeah, yeah, yeah

Do you ever feel lonely?
Do you ever feel stoned?
Girl, you always been broken
Come on, make you feel at home

If you love me long
If you love me long
If you love me
You can have it all
You can have it all
You can have it
If you love me long
If you love me long
If you love me
You can have it all
You can have it all
You can have it

I will love you all night, all night
I wanna kiss you, touch you real nice, baby
(Kiss you, touch you, oh yeah)
I will love you all night, all night
I wanna kiss you, touch you real nice, oh yeah

If you love me long (If you love me)

If you love me long
If you love me
You can have it all
You can have it all (Bae)
You can have it
If you love me long
If you love me long
If you love me
You can have it all
You can have it all
You can have it

If you love me
Yeah, if you love me
If you love me long
If you love me long
If you love me long
You can have it
