

# Not Ready

Elliphant

We broke this open we shared the blissed things  
We saw too much now we see nothing  
You fill me empty space I didn't know I had  
Slipped in me like a key, lock me up

We should've stopped the time  
All I have now is a picture in this smoky mind  
We should've stopped the time  
All I have now is a picture in me

I guess I'm not ready for reality  
A young woman in a new world  
I have a big responsibility  
To live life wild and free like a bird

Now is the time to be dancing  
I'm too young to hold on  
Soon I'm too old to let go man  
That's when I go down on love

Now is the time to be dancing  
I'm too young to hold on  
Soon I'm too old to let go man  
That's when I go down on love

Life turns so quick into shit that was up with you  
I lost myself in this I'm sorry sorry  
I need to ride alone  
That's all I promise man don't worry worry

I guess I'm not ready for reality  
A young woman in a new world  
I have a big responsibility  
To live life wild and free like a bird

Now is the time to be dancing  
I'm too young to hold on  
Soon I'm too old to let go man  
That's when I go down on love

Now is the time to be dancing  
I'm too young to hold on  
Soon I'm too old to let go man  
That's when I go down on love

And I always pay for my shit

Now is the time to be dancing  
I'm too young to hold on  
Soon I'm too old to let go man  
That's when I go down on love

Now is the time to be dancing  
I'm too young to hold on  
Soon I'm too old to let go man  
That's when I go down on love
