

Only Getting Younger

Elliphant

Why your skin go wrinkle we only getting younger
We ride into a peek we can't take this shit no longer
Main our mind a lover man a body go weak
I got my bloody truth I got my BAS crew with me
Walk around with bloody hands I saw you lick it off
We gon' keep them dirty just to prove a point
Keep it dirty is for truth that my crew hunger
Whoa
So fuck tomorrow we only getting younger

All universe implode in me
Up or down in and out no matter G
Now stop falling, I smell like a fox
Coloring questioning a blank answer box
Trip on trigger true, twist a tune, trick a dumb
Fresh like a fungus, smelling shit, smelling numb
We born together together we keep struggle
So fuck tomorrow we only getting younger

Fuck tomorrow we only getting younger
You to follow we are here to rumble
Grab a hand take things too long
Drag shit to it's fullest blow me right from wrong
Stand tall, free I fall, your call, is my ball, now yours, close them
doors,
Get blown, by a force, of truth, missing youth, fuck the shows,
Skrillex, haha, loose the goose man, FUCK IT!

Walk around with bloody hands I saw you lick it off
We gon' keep them dirty just to prove a point
Main our mind a lover man a body go weak
I got my bloody truth I got my BAS crew with me
I got my [x3]

Me and my bitches me and my dogs
Dandelion war keep digging streets for gold
Feeling kind of tense I need a cup of whiskey
My glass is overfull be careful when you pass me
We dominate this corner with my BAS family
Overtake this blocker with my boom energy
Born to be a rocker gotta grow with us
Acting like a sucka, suck it all, suck it up

Walk around with bloody hands I saw you lick it off
We gon' keep them dirty just to prove a point
Main our mind a lover man a body go weak
I got my bloody truth I got my BAS crew with me
I got my [x3]

So fuck tomorrow we only getting younger
