

## Only Getting Younger

Elliphant

Why your skin go wrinkle we only getting younger  
We ride into a peek we can't take this shit no longer  
Main our mind a lover man a body go weak  
I got my bloody truth I got my BAS crew with me  
Walk around with bloody hands I saw you lick it off  
We gon' keep them dirty just to prove a point  
Keep it dirty is for truth that my crew hunger  
Whoa  
So fuck tomorrow we only getting younger

All universe implode in me  
Up or down in and out no matter G  
Now stop falling, I smell like a fox  
Coloring questioning a blank answer box  
Trip on trigger true, twist a tune, trick a dumb  
Fresh like a fungus, smelling shit, smelling numb  
We born together together we keep struggle  
So fuck tomorrow we only getting younger

Fuck tomorrow we only getting younger  
You to follow we are here to rumble  
Grab a hand take things too long  
Drag shit to it's fullest blow me right from wrong  
Stand tall, free I fall, your call, is my ball, now yours, close them  
doors,  
Get blown, by a force, of truth, missing youth, fuck the shows,  
Skrillex, haha, loose the goose man, FUCK IT!

Walk around with bloody hands I saw you lick it off  
We gon' keep them dirty just to prove a point  
Main our mind a lover man a body go weak  
I got my bloody truth I got my BAS crew with me  
I got my [x3]

Me and my bitches me and my dogs  
Dandelion war keep digging streets for gold  
Feeling kind of tense I need a cup of whiskey  
My glass is overfull be careful when you pass me  
We dominate this corner with my BAS family  
Overtake this blocker with my boom energy  
Born to be a rocker gotta grow with us  
Acting like a sucka, suck it all, suck it up

Walk around with bloody hands I saw you lick it off  
We gon' keep them dirty just to prove a point  
Main our mind a lover man a body go weak  
I got my bloody truth I got my BAS crew with me  
I got my [x3]

So fuck tomorrow we only getting younger
