

Player Run

Elliphant

Coming home from duty, I need, I need a break
This been so lone and I feel so low
Calling up for the city, holla back at me
Telling me that I'm pretty and I can't say no
I can't wait to wear 'til they lose inside
And your face looks bored and I ride tonight
On my big dark horse, I'm fast as light, yeah
I'm fast as light

So I jump in a cab now (Jump in a cab)
I'm heading down downtown (Heading downtown)
Are you gonna be around? (Are you gonna be around?)
Cause I need some love (Need some love)
And I need it now (Need it now)
Can I have it now? (Can I have it now?)
Can I wait no more? (No more)

Booty calls, empty hearts
Game is on, player run run run
Booty calls, empty hearts
Game is on, player run run run

Gonna raise the glass high
Show your face to the wet crowd
Better not be the red light
Need to take me home

So I jump in a cab now (Jump in a cab)
And we heading up uptown (Heading uptown)
Not together, not alone (Not together, not alone)
Cause we need some love (Need some love)
And we need it now (Need it now)
Can I have it now? (Can I have it now?)
Can I wait no more? (No more)

Booty calls, empty hearts
Game is on, player run run run
Booty calls, empty hearts
Game is on, player run run run
Player run run run

I bite my tongue, lips still are numb
My body's pleased and my heart is numb
I smoke a ciggy when the game is done
I'm full for now, now run player run
I bite my tongue, lips still are numb
My body's pleased and my heart is numb
So I smoke a ciggy when the game is done
I'm full for now, now run player run

Booty calls, empty hearts
Game is on, player run run run
Booty calls, empty hearts
Game is on, player run run run

Player run, player run
Player run run run

(Run, run, run, run, run, run)
Player run, player run
(Run, run, run, run, run, run)
Player run, player run
(Run, run, run, run, run, run)
Player run, player run
(Run, run, run, run, run, run)
Player run, player run
